

WIRE MESH WELDED

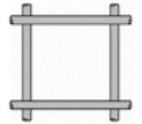

C I S A
SIEVING TECHNOLOGIES

These meshes are formed by an electric welding point at the junction of the warp and weft wires.

Mallas electrosoldadas

AISI-304 STAINLESS STEEL WELDED MESH

Opening mm.	Wire Ø mm.	Weight Kg/M ²	Width mm.
6,0 x 6,0	1,00	1,80	1000
8,0 x 8,0	1,00	1,40	1000
10,0 x 10,0	1,00	1,15	1000
12,0 x 12,0	1,00	1,00	1000
16,0 x 16,0	1,20	1,10	1000
20,0 x 20,0	1,50	1,35	1000
20,0 x 20,0	2,00	2,30	1000
25,0 x 25,0	1,50	1,10	1000
25,0 x 25,0	2,00	1,90	1000
50,0 x 50,0	2,00	1,00	1000
50,0 x 50,0	3,00	2,14	*
50,0 x 50,0	5,00	5,74	*

**This welded mesh is served on plates of 2000x1000 mm.
Any other wide or form are available by order and depending on the quantity.**

STAINLESS STEEL WELDED MESH PANELS

Manufacture under order of stainless steel electrowelded mesh panels, both in AISI-304 and AISI-316. Also in grey and/or galvanised steel.

The mesh size can be from 10 to 500 mm.

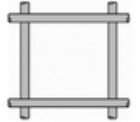

The wire diameter is from 3.00 mm Ø to 8.00 mm.Ø.

The maximum custom-made dimension is 3000 x 1600 mm.

The sides of the meshes can be finished without tips, with longitudinal tips, with tips on 4 sides or with finishes according to the plan.
