

WIRE MESH CRIMPED

C I S A
SIEVING TECHNOLOGIES

MATERIALS:

- Grey steel
- Galvanized steel
- AISI-304
- AISI-310
- AISI-316
- Monel

These metallic clothes are made with crimped wires, therefore this characteristic gives to the mesh a great stability on the mesh. This also allows the possibility to combine high quantities of openings with different wire diameters.

Available on small series, usually delivered in plates, with a width up to 2,00 M.

They can be made in different materials: galvanized steel, stainless steel (AISI-304, AISI-3016, AISI-310), soft steel, monel, etc.

Please ask for any other kind of materials not included in this chart:

| Weft mm. | Warp mm. | Fo % | G Kg/m ² |
|----------|----------|-------|---------------------|
| 12,50 | 2,50 | 69,44 | 5,30 |
| 13,00 | 2,00 | 75,11 | 3,40 |
| 13,50 | 1,50 | 81,00 | 1,90 |
